

GUIDELINES FOR POSTER PRESENTERS IMPI 52 SYMPOSIUM

General Information

Thank for your upcoming presentation at IMPI 52. With your help, we are looking forward to a very productive program, in a great venue. All oral presenters (including keynote and invited speakers) are encouraged to also prepare a poster in addition to their oral presentation.

There will be 4 types of presentations at IMPI 52:

(1) **Keynote Lectures** (45 min)

(2) **Invited Lectures** (30 min)

(3) **Oral Presentations** (20 min)

(4) **Poster Presentations** (2 min oral presentation during a Flash session on Tuesday afternoon.) The Flash Presentation will only be for those individuals with a “Poster only” presentation; oral presenters will not take part in the Flash Session. Posters presentations will also occur at dedicated mid-day sessions on Wednesday and Thursday following lunch, as well as at the Welcome Reception on Tuesday and coffee breaks Wednesday and Thursday.

(5) **Poster Presentations Logistics**

Posters should be placed Tuesday before the 1:30pm start of the Symposium, and should remain in place for the duration of the Symposium. Be present at your poster during the designated poster sessions.

Posters will be attached to 91 x122 cm cardboard plaques (supplied by the Symposium along with materials to attach your poster to the cardboard plaque). Posters will then be set on top of a table, placed against the wall, or on an easel either in the Exhibit Hall itself, or in the adjacent breakout session room. This has the following implications:

(1) The poster will be viewed at a minimum distance of a table. All features on the poster should be sufficiently large to be legible at that distance.

(2) It will be useful to come equipped with a “collapsible antenna” or other pointer.

(3) The table top will be available to show samples, hold a lap-top to show animations or clips, or to have printed material for distribution.
