

IMPI's Fall Seminar hosted by Sairem

October 8-10, 2024

6725-B Jimmy Carter Blvd
Peachtree Corners, GA 30071

IMPI's Fall Seminar, hosted at SAIREM CORP in suburban Atlanta, will highlight how Microwave and Radio Frequency can resolve certain industrial challenges.

Session organization:

- Presentation of an industrial challenge,
- How microwave or RF can improve the process,
- Live demonstration in front of the audience,
- Question & Answer.

Topics will include:

Insect drying, Herbs drying, Tempering or Thawing, RTE Meals, Turning biomass into biofuel, CO2 conversion from Malachite.

Who Should Attend:

Engineers, scientists, educators, and others having a technical background who are interested in microwave and radio frequency (Mw/RF) technologies and their use in consumer, commercial, industrial, scientific and medical applications.

This event offers a great opportunity to explore the latest advancements in microwave and RF technologies through informative sessions led by industry experts. Connect with fellow professionals and enthusiasts from the MW RF community, and engage in valuable discussions and collaborations. We look forward to welcoming you for this experience.

Registration will open July 15th!

IMPI Members: \$675
Student Members: \$300

Non-Members: \$775
Student Non-Members: \$400
